## Allergen Information

Prima makes products in a bakery where all allergens (excluding crustaceans & molluscs) are present at all times and in constant use. While we make every effort to prevent cross contamination, we **cannot guarantee** that any food item we make is 100% free of any specific allergen.

For customers with serious allergies, particularly Nut/Sesame allergies who may react to a trace of an allergen, it is important to recognise that even with this level of control there may still be traces of allergens present in the food from airborne contamination, and may therefore be unsuitable for you to eat.

If you require allergen information on any specific product, **please ask a member of staff** who will be happy to assist.

It is important to note that we may update our recipes or suppliers at any time, so please ensure the allergen information is checked at the time of every purchase.
